Respected Recruiter,

I am writing to express my interest in this job position. With over five years of experience in the field of data engineering and architecture, coupled with my expertise in cloud solutions, I am motivated about the opportunity to contribute to your team. My background has equipped me with the skills and knowledge necessary to excel in this role and develop innovative solutions.

In my most recent role at T-Systems International, I have been responsible for developing and implementing scalable data engineering solutions. My previous positions at Medbelle, PwC, and Deloitte have provided me with a diverse set of experiences, allowing me to consult with Fortune 500 clients and lead data integration and migration projects.

Here are some key skills and accomplishments that I believe would be valuable to your team:

- **AWS:** Extensive experience with AWS services including Lambda, Glue, Redshift, and CDK.
- **Python & PySpark**
- **SQL**
- **Apache Airflow**
- **Data Modeling & ETL**
- **DevOps**

In addition to my technical skills, I am committed to continuous learning and have earned several AWS certifications. These certifications help my dedication to staying up to date with new advances and following best practices. I am confident that my background and passion for data architecture would allow me to make significant contributions to your team.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the needs of your team. Please feel free to contact me at +49 15213047579 or via email at rishabhcswal@gmail.com to schedule an interview.

Sincerely,

Rishabh Oswal
